Over Half a Century Devoted to Creating Greater Nursery Values

CEDRUS DEODARA

The picture above shows a beautiful Cedrus Deodara growing in the yard at Mr. and Mrs. J. B. Baker's home. Note the remarkable growth and beauty of this plant.

The photo at the right shows a partial view of a field of our large Baker's Arbor Vitae. The Baker's is considered the best of the compact pyramidal form.

Specimen Plants

We have a complete range of specimen stock and invite you to write us regarding your needs. We will be glad to send you complete information and our special low prices.

EVER since 1883—over half a century—it has been our privilege to pioneer in the betterment of nursery methods and tree growing in the Southwest.

Our position as one of the older nurseries in the Southwest; our reputation for fair dealing; and our responsibility has caused many to confidently look to us to provide them with the newer and better values in Evergreens, shrubs; fruit, shade and pecan trees; roses, grasses, vines and grapes.

These extra values are made possible to you by our more than fifty years of successful planting experience.

BAKER'S ARBOR VITAE

EVERGREENS

Planting Adds to the Joy of Living and Increases Property Values

There exists a new interest in planting. Home owners everywhere are awakening to the beauty possibilities of their home grounds, to the joy of planting and creating beautiful grounds and outdoor living rooms. This all adds to the joy of living and increases your property value.

Beautifying your home grounds is an investment which pays immediate dividends. Planting is one of the few investments that does not depreciate but ever brings increased returns in actual value and satisfaction.

You Are Invited to Visit Our Nursery

Whenever possible we should like for you to visit the Nursery to select stock, as it must be seen to be fully appreciated. Visitors are always welcome. However, if you cannot come to see us we assure you of our careful selection and better values and will try to pick your stock as you would yourself.

EVERGREENS:

Besides the sizes listed in this price list, we can furnish evergreens in larger sizes. The sizes listed here are for mail orders, but if you desire the larger grades, write for prices or get in touch with our local agent or dealer who has a complete set of prices. We will be glad to furnish the name of our nearest dealer upon request.

(Note) With the good roads that we now have, it is an easy matter to visit our Nursery. We welcome all out-of-town guests and believe that you will find it interesting to spend some time in our Nursery, where you will be given courteous attention by competent sales people. If ordering in quantities of truck load lots, we can make delivery with very small additional cost.

Plants marked "B. & B." are dug with a ball of dirt in which they are grown, all other plants are dug without dirt and packed with moist packing material.

BAKER'S ARBOR VITAE:

Dark green, soft feathery foliage, pyramidal form, ultimate height about 8 feet.

B. & B.	Ea.	10	100

ITALIAN CYPRESS WORTHIANA, 6-8 FT.

BERCKMAN'S DWARF GOLDEN ARBOR VITAE:

Low growing, compact, golden evergreen, formal, very hardy, easy to transplant. One of the best evergreens for the South and does exceptionally well in West Texas.

B. & B.	Ea.	10	100
10-12 in.40	.35	.30
12-18 in.55	.50	.45
18-24 in.70	.60	.50
Bare Rooted:	Ea.	10	100
8-12 in.20	.18	.15
12-15 in.25	.22	.20
15-18 in.30	.25	.22

BONITA ARBOR VITAE:

(Round, low growing, dark green heavy foliage, fine for formal planting.)

B. & B.	Ea.	10	100
12-15 in.50	.45	.40
15-18 in.60	.50	.45
Bare Rooted:			
10-12 in.25	.22	.20

CEDRUS DEODARA:

(Large growing specimen plant, native of India, resembles the Fir tree of the North.)

B. & B.	Ea.	10	100
2-3 ft.	1.70	1.50	1.40
3-4 ft.	2.30	2.00	1.70

CYPRESS, ARIZONA:

(Fast growing, blue, feathery foliated evergreen from Arizona, especially adapted to arid conditions.)

B. & B.	Ea.	10	100
18-24 in.70	.60	.50
24-30 in.	1.00	.80	.60

CYPRESS, ITALIAN (Worthiana Type):

(Very superior strain of symmetrical upright growth, and much hardier than other cypresses. The parent tree on our grounds is twenty years old and has never been in-

jured by cold when all other specimens were either killed outright or severely damaged by the severe cold spells we have had every four or five years. Young plants propagated from this stock were uninjured in the field while other stock was killed. Every tree is handsome and uniform in its growth.)

B. & B.	Ea.	10	100
12-18 in.60	.50	.40
18-24 in.70	.60	.50
2-3 ft.	1.00	.80	.60

JUNIPER, PFITZERIANA:

(Best of the low growing, spreading type. Blue gray foliage of coarse texture, easily transplanted and hardy for the entire Southwest.)

B. & B.	Ea.	10	100
12-18 in.60	.50	.40
18-24 in.80	.60	.50

ALTHEA, an old favorite—assorted colors.

BUDDLEIA (Butterfly Bush):
 Low growing lavender flowers borne on long spikes—also called summer lilac.

CORAL BERRY:
 Low growing native shrub, covered with red berries in the fall.

CREPE MYRTLE:
 The best shrub for the Southwest. Blooms throughout the summer. Good for massed planting or as individual specimens. Crimson or watermelon red is the best color.

FORSYTHIA:
 Low growing, early blooming shrub, bears a profusion of yellow bell shaped flowers. Known also as Golden Bell.

HARDY LANTANA:
 Pink and orange. Native of Southwest Texas. Very hardy, drouth resistant. Flowers similar to annual variety. Should be cut back each year for best effect.

HONEYSUCKLE, BUSH:
 We have several leading varieties.

JAPAN QUINCE:
 Early blooming, red flowering, low growing.

JASMINE PRIMROSE:
 Heavy foliage, almost evergreen.

LILAC PERSIAN:
 This variety blooms in the spring and usually in the fall. Large clusters of purple flowers. Blooms first season after planting.

POMEGRANATE:
 Red flowers. Blooms in June and July. Grows about four feet high.

BLOCK OF SYCAMORE

HARDY LANTANA, OUR BEST EVER BLOOMING LOW GROWING SHRUB

RED BUD:

Small shrubby tree, covered with red blossoms in spring—native of Texas and exceptionally good for West Texas.

SALVIA GREGGI:

Small red flowering shrub, blooms late in summer. Should be cut to the ground each year. Native of Southwest Texas. Exceptionally hardy and drouth resistant.

SPIREA FROEBELI:

Low growing, pink flowering. Blooms most of the summer. Does best in partial shade.

SPIREA THUNBERGI:

Very small delicate foliaged, white flowering shrub. One of the first to bloom. Blooming sometimes in February.

VITEX:

Also known as Lavender. Large, rank growing shrub. Lavendar blooms are borne on long spikes.

NEW ROSES

Patented
Novelty Varieties

THESE are roses which the introducer thought were of such especial merit as to warrant the patenting of them. The descriptions are those of the introducer. Enjoy the beauty of a profusion of glorious color in a rose garden of your own.

1. BLAZE (Everblooming Paul's Scarlet)

Plant Patent No. 10

This marvelous, hardy, everblooming, scarlet-red Rose is a seedling of Paul's Scarlet Climber and Gruss an Teplitz, combining the bloom and the habit of Paul's Scarlet with the everblooming character of Teplitz. It is a vigorous, climbing Rose, clothed from top to bottom with excellent foliage, and generally covered with flowers from the earliest blooming season until late autumn. It can be pruned very low to make massing or bedding plants, or it can be trained as a shrub or tied up as a climber or pillar. Its great adaptability in these respects makes it a fine utility Rose, and its brilliant color insures that it will supplant the ordinary Paul's Scarlet. Blaze was awarded the Special Certificate reserved for Climbing Roses at the Bagatelle Contest in Paris, 1933.

Price: All Two-Year, No. 1 Plants,
\$2.00 each, 6 or more at \$1.67 each.

2. GOLDEN CLIMBER (Mrs. Arthur Curtiss James)

Plant Patent No. 28

Originated by Mr. and Mrs. Walter D. Brownell, of Rhode Island, who have been working strenuously to improve the size, color, hardiness, and blooming qualities of climbing Roses, this magnificent new golden yellow climber has met with sensational approval wherever it has been grown or shown. It is virtually a yellow Mary Wallace, although the foliage is glossier and healthier, and the long-stemmed yellow flowers are borne singly instead of in clusters.

Blossoms of tremendous size with glorious, long-pointed buds were exhibited at the Rose Show of the Massachusetts Horticultural Society and won the acclaim of the members of the American Rose Society assembled in Boston at that time.

Undoubtedly this splendid new Rose is the finest hardy yellow climbing Rose introduced to date, and will give great pleasure to a tremendous number of enthusiastic Rose-growers as it becomes known to them.

Price: All Two-Year, No. 1 Plants,
\$2.00 each, 6 or more at \$1.67 each.

3. A New Novelty, COUNTESS VANDAL

Everblooming. Plant Patent No. 38

At all the Rose shows in Europe during the season of 1931 this Rose took first prizes, medals, and awards of commendation, making a veritable sensation in the Rose-world. Its long, pointed buds are coppery salmon and golden yellow, opening to large, bronzy pink flowers frequently more than 5 inches across, its long, deep petals reflexing in a graceful manner so that it has an exquisite delicacy of form unapproached by other varieties of similar size. Upright and vigorous; bronzy foliage and prolific flowering habit.

Price: \$1.50 each, 6 or more at
\$1.25 each.

4. MARY HART (New)

(Red Talisman) Plant Patent No. 8

A stunning, glorious red sport of the well-known Talisman which it resembles in almost all respects except color, having the same erect habit, with foliage of somewhat darker green. It is an unceasing bloomer, producing warm brownish crimson flowers both early and late, with the unusual merit for a red Rose that the color does not turn bluish as the blooms fade.

Price: \$1.50 each, 6 or more at
\$1.25 each.

5. SOUVENIR (Golden Talisman)

Plant Patent No. 25

A pure golden yellow sport of the remarkable Rose, Talisman, which it equals in vigor and resembles in its upright growth, healthy light green foliage, and freedom in blooming. Its flowers are slightly larger than those of Talisman and a little more loosely built, thus correcting one of the minor faults of that popular variety. The blooms are fadeless yellow and last for a long time, either on the bush or when cut. It promises to be the most free-flowering, non-fading yellow Rose yet introduced and its Talisman parentage assures its vigor and excellent behavior in the garden. We are almost certain that it will take its place as a permanent garden resident.

Price: \$1.00 each, 6 or more at
84c each.

EVERBLOOMING POLYANTHAS OR BABY RAMBLERS

GLORIA MUNDI:

Huge clusters of small, orange-scarlet flowers of a deeper tone than Golden Salmon. A very startling and unexpected color in the Rose garden. Price: 50 cts. each, \$5.00 per doz.

ELLEN POULSEN:

Large, fairly full flowers of bright rose-pink, darker toward the edges, borne profusely in large clusters; fragrant. Plant 15 to 18 inches high. One of the best Baby Ramblers. Price 35 cts. each, \$3.50 per doz.

F. J. GROOTENDORST:

Small, fringed flowers of bright red, in large clusters throughout the season. Vigorous: 6 feet or more. Large foliage of superb quality. Makes a fine everblooming hedge when kept cut to 4 feet. 35 cts. each, \$3.50 per doz.

MISS EDITH CAVELL:

Small, semi-double, brilliant scarlet-red flowers, produced in big, cone-shaped clusters. Sturdy, well-branched plants. One of the best. 35 cts. each, \$3.50 per doz.

GOLDEN SALMON:

Bright orange-salmon flowers in huge clusters. Growth is vigorous and bushy. First really orange Polyantha. Makes a splendid display planted in masses. 35 cts. each, \$3.50 per doz.

ROSES

Hardy Hybrid Tea Varieties New Introductions

We are listing, in our opinion, the twelve best roses of recent introduction for the Southwest. In making our selections we tried to consider first of all the hardiness and vigor of each variety, but keeping in mind at the same time that beauty of the flower was a necessary requirement for a truly successful rose. Price \$5.00 per doz., 50 cts. each.

1 ANGELUS: Very double, long petals. Resembles the old favorite Kaiserin Augusta Victoria but has the added charm of fragrant. Strong grower.

2 BRIARCLIFF: An improved Columbia, long pink petals, very double. A good greenhouse variety that does equally well outside.

3 CUBA: Large copper, almost single flowers when opened. A very unusual and striking rose and worthy of a place in your garden.

4 DAINTY BESS: A single dainty white rose with flowers borne in large clusters.

5 DAME EDITH HELEN: The showiest, as well as one of the best all round pink roses ever introduced for this section. The large, beautiful very double blossoms last well, making them good for cut flowers. The plants are of vigorous growth and free blooming. Your garden will not be complete without this wonderful rose.

6 E. G. HILL: Dark red, very double, large and fragrant. The plants are vigorous growers and prolific bloomers. A good variety for cut flowers as the blooms keep in good condition for several days after cutting.

7 ETOILE DE HOLLANDE: Large brilliant red flowers. Large petals. Free blooming and vigorous growth.

8 IMPERIAL POTENTATE: Dark pink, double blossoms. Under sides of petals somewhat lighter after opening. Plant of healthy, upright growth with vigorous heavy foliage.

9 JOANNA HILL: Bright yellow, strong bloomer. Good cut rose with long stems. Resembles the popular Sunburst, but is better in every feature.

10 MRS. PIERCE S. duPONT: This golden yellow rose is one of the prettiest yellow roses that we have seen. Its long clear yellow huds, vigorous stems and foliage, and general beauty and vigor make a pleasing combination. If you only have room for one yellow rose in your garden, we recommend this variety.

11 PRESIDENT HERBERT HOOVER: Vigorous colored new rose, double large bloom and large fragrant petals that last well.

12 TALISMAN: Probably the best known and most popular of the newer introductions. Brilliant salmon colored; many shaded buds make this rose an outstanding success. Vigorous upright growth and very full bloomer.

STANDARD VARIETIES

This list includes the best of the older, better known varieties. Price:

No. 1. Field Grown 35c each; \$3.50 per doz.
No. 2. Field Grown 25c each; \$2.50 per doz.

American eBauty—Deep Rose

CLIMBING ROSES

CLIMBING AMERICAN BEAUTY:

HW. Light crimson flowers, most beautifully shaped. Early bloomer. 35 cts. each, \$3.50 per doz.

MARY WALLACE:

HW. Large, semi-double, warm rose-pink flowers. Vigorous, glossy foliage. 50 cts. each, \$5.00 per doz.

PAUL'S SCARLET CLIMBER:

HW. Bright scarlet blooms of excellent shape and moderate size, in small trusses. Foliage good. Moderate growth; blooms liberal in early season. 35 cts. each, \$3.50 per doz.

CLIMBING PRESIDENT HOOVER:

CI. HT. Sport of President Herbert Hoover described on page 4. The plants we sell were originated by us and are adapted to the South. 65 cts. each.

CLIMBING RED RADIANCE:

CI. IIT. A strong climber, in bud and bloom like the bush Red Radiance described on page 18. 50 cts. each, \$5.00 per doz.

CLIMBING ROSE MARIE:

CI. HT. Sport of Rose Marie. Fragrant, rose-pink flowers of large size, borne freely on plants of notable vigor and health. Our choice of a pink climber. 50 cts. each, \$5.00 per doz.

SCORCHER:

CI. HT. An astonishing new climber from Australia, with huge, semi-double flowers whose ruffled petals are blazing rose-red, entirely different in effect from any other climber of its class. One of the most spectacular varieties. Several blooming periods. 50 cts. each, \$5.00 per doz.

SILVER MOON:

HW. Long, creamy buds; immense, nearly single, saucers shaped, creamy white flowers with golden anthers. 35 cts. each, \$3.50 per doz.

CLIMBING TALISMAN:

CI. HT. The most wonderful new climber in existence. 55 cts. each.

A Personal Message from the President of BAKER BROS. Nursery

FIFTY YEARS of continuous service under the same management and the same man and in the same location is the record of which BAKER BROS. feel they have a right to be proud.

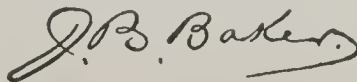

IN November, 1883, my Brother, the late William Baker, and I started selling nursery stock in Texas with headquarters at Fort Worth. From this small beginning the business has grown until today there is a modern nursery establishment of over 200 acres and a personnel of workers selling nursery stock throughout the entire United States.

Many of our first customers are still doing business with us and we have added many more as the result of our efforts to render the best of service

to all with whom we have come in contact.

I want to take this occasion to personally thank each of our customers who have been so generous with us and who have made it possible for our organization to accomplish whatever small success that we have enjoyed.

Associated with me are my two sons, Edward L. Baker and J. B. Baker, Jr., and it is not unreasonable to expect that the business of Baker Bros. may continue for another half century.

President, BAKER BROS. Nursery

Guarantee

All items listed are guaranteed to be first class in every respect and of a high quality. We guarantee your order delivered to you in good condition.

Terms

Terms are cash with order, or if shipped C. O. D. one-quarter cash should be sent with the order. Orders amounting to \$150.00 or more will be shipped in our own trucks, within a 250-mile radius of Fort Worth, for only \$15.00 transportation charges. Prices quoted are F. O. B. Fort Worth.
